SUBJECT INDEX

A
Abscess
  surgery for sphenoid sinus abscess, 278-le
  ultrasound-based navigation during intracranial burr hole procedures, 134
Acute agitated delirium, postoperative hyperperfusion syndrome in elderly patients with chronic subdural hematoma, 155
Alport's syndrome, ruptured intracranial aneurysm in adolescent with, 68
American Association of Neurological Surgeons (AANS)
  response to Dr. Dunsker, president of the AANS, 277-ed
  society merger?, 280-le, 334-le
  thoughts on Dr. Weiss's Presidential Address to the AANS, 401-ed
Anesthetic agents, intraoperative variables and early outcome after aneurysm surgery, 304
Aneurysms
  distal superior cerebellar artery, in systemic lupus erythematosus, 73
  intracranial
    enhancing biological activity of Guglielmi detachable coils in treatment of, 34
    intraoperative variables and early outcome after surgery for, 304
    ruptured, in adolescent with Alport's syndrome, 68
    surgery following endovascular coiling of, 352
  multiple "mirror" aneurysms involving intracavernous carotid arteries and vertebral arteries, 361
  paraclinoid, endovascular treatment of, 288
  ruptured internal carotid artery, interhemispheric subdural hematoma caused by, 82
  saccular cerebral, in young adults, 59
  timeline: pioneers in cerebral aneurysms, 465
Angiogenesis
  expression of tenascin-C in astrocytic tumors, 235
  prognostic significance of clinical and angiogenesis-related factors in low-grade oligodendrogliomas, 229
Angiography
  endovascular treatment of paraclinoid aneurysms, 288
  hemodynamics of in-tandem stenosis of internal carotid artery, 145
  Horner's syndrome after carotid artery stenting, 439
  multiple "mirror" aneurysms involving intracavernous carotid arteries and vertebral arteries, 361
  saccular cerebral aneurysms in young adults, 59
  spontaneous peritumoral hemorrhage associated with sinus confluence meningioma, 254
  surgery following endovascular coiling of intracranial aneurysms, 352
  transvenous occlusion of dural cavernous sinus fistulas through thrombosed inferior petrosal sinus, 42
Anisocoria, Horner's syndrome after carotid artery stenting, 439
Antisense therapy, gene therapy for brain tumors, 3
Arteriovenous malformations timelines
  endovascular therapy, 300
  radiation therapy, 274
Atlas-axis fractures, differential treatment in acute upper cervical spine injuries, 203

B
Behavior
  technology vs. morality, 92
  thoughts about the younger generation, 79
Bioethics, evaded, 199-le
Biplanar image guidance, syringe needle located deep in brain: image-guided removal, 458

prognostic significance of clinical and angiogenesis-related factors in low-grade oligodendrogliomas, 229
proliferative activity in craniopharyngiomas, 241
radiological evidence of glioma invasion of the central nervous system along tracts, 194
Brainstem
cavernoma, 418
limited anterior petrosectomy with preoperative embolization of inferior petrosal sinus for ventral brainstem tumor removal, 10
Burr hole procedures, ultrasound-based navigation during, 134

C
Carbon dioxide pressure, brain tissue PO_2, PCO_2, and pH during cerebral vasospasm, 432
Carotid artery
hemodynamics of in-tandem stenosis of internal carotid artery, 145
Horner's syndrome after carotid artery stenting, 439
interhemispheric subdural hematoma caused by ruptured internal carotid artery aneurysm, 82
multiple "mirror" aneurysms involving intracavernous carotid arteries and vertebral arteries, 361
Cauda equina, migration of intraspinal schwannoma documented by intraoperative ultrasound, 455
Cavernoma, brainstem, 418
Cavernous sinus
history of extradural neural axis compartment, 422
multiple "mirror" aneurysms involving intracavernous carotid arteries and vertebral arteries, 361
transvenous occlusion of dural cavernous sinus fistulas through thrombosed inferior petrosal sinus, 42
Cell proliferation
expression of tenascin-C in astrocytic tumors, 235
proliferative activity in craniopharyngiomas, 241
Cerebellopontine angle metastasis, from papillary carcinoma of thyroid, 320
Cerebral blood flow
brain tissue PO_2, PCO_2, and pH during cerebral vasospasm, 432
postoperative hyperperfusion syndrome in elderly patients with chronic subdural hematoma, 155
Cerebral ischemia, brain pH monitoring during, 55
Cerebral palsy, nerve rootlets to be sectioned for spasticity resolution in selective dorsal rhizotomy, 126
Cervical spine
cervical disc herniation presenting with acute myelopathy, 198-le
differential treatment in acute upper cervical spine injuries, 203
gliosarcoma metastatic to cervical spinal cord, 373
occipitocervical fusion following extreme lateral transcondylar approach, 109
Chondrosarcoma, massive, in skull base associated with Maffucci's syndrome, 165
Choroid plexus papilloma, lateral ventricle, in childhood, 366
Cisternal irrigation, with UK to prevent vasospasm, 95-le
Clinical controversy
brainstem cavernoma, 418
radiosurgery for trigeminal neuralgia, 285
Clivus fracture, transverse, 171
Coiling techniques
endovascular treatment of for paraclinoid aneurysms, 288
enhancing biological activity of Guglielmi detachable coils in treating intracranial aneurysms, 34
surgery following endovascular coiling of intracranial aneurysms, 352
Collagenopathy, ruptured intracranial aneurysm in adolescent with Alport's syndrome, 68
Complications
of anterior temporal lobectomy, 341
Factor XIII deficiency and postoperative hemorrhage after neurosurgical procedures, 260
Horner's syndrome after carotid artery stenting, 439
iatrogenic acute subdural hematoma due to drainage catheter, 444
of lateral ventricle choroid plexus papilloma in childhood, 366
neglected craniocerebral gunshot wound resulting in encephalocele, 397
olfactory groove meningioma: surgical techniques and pitfalls, 415
ophthalmoplegia resulting from intraorbital hematoma, 447
radiation induced vascular injury after stereotactic radiosurgery for trigeminal neuralgia, 189
spontaneous bowel perforation after ventriculoperitoneal shunt surgery, 388
of subdural grid electrode implantation in epilepsy surgery, 346
Computed tomography
growing traumatic leptomeningeal cyst of roof of orbit presenting with unilateral exophthalmos, 178
juxtapositioning of temporalis muscle for intractable subdural empyema in infants, 316
massive chondrosarcoma in skull base associated with Maffucci's syndrome, 165
neglected craniocerebral gunshot wound resulting in encephalocele, 397
orbital apex leiomyoma with intracranial extension, 327
spontaneous bowel perforation after ventriculoperitoneal shunt surgery, 388
spontaneous movement of metallic intracranial foreign body, 267
transsphenoidal meningoencephalocele in adults, 183
transverse clivus fracture, 171
Congenital anomalies
parietal sinus pericranii, 270
transsphenoidal meningoencephalocele in adults, 183
Connective tissue disorders
distal superior cerebellar artery aneurysm in systemic lupus erythematosus, 73
heritable, intracranial aneurysms and, 77
Craniopharyngioma

cystic, spontaneous intraventricular rupture of, 249
proliferative activity in, 241
Cyst
cystic schwannoma of orbit, 385
growing traumatic leptomeningeal cyst of roof of orbit presenting with unilateral exophthalmos, 178
spontaneous intraventricular rupture of craniopharyngioma cyst, 249

D
Dermatofibrosarcoma protuberans of scalp, intracranial extension of, 452
Drainage catheter, iatrogenic acute subdural hematoma due to, 444
Dural metastases, multiple, benign pituitary adenoma with, 380

intraoperative variables and early outcome after aneurysm surgery, 304
morphological changes of cerebral penetrating arteries in canine double hemorrhage model, 212
multiple "mirror" aneurysms involving intracavernous carotid arteries and vertebral arteries, 361
prevention of vasospasm in penetrating arteries with MAPK inhibitors in dog double-hemorrhage model, 221
ruptured intracranial aneurysm in adolescent with Alport's syndrome, 68
saccular cerebral aneurysms in young adults, 59
Subdural empyema, in infants, juxtapositioning of temporalis muscle for, 316
Subdural grid electrode implantation, in epilepsy surgery, complications and results, 346
Subdural hematoma
chronic, postoperative hyperperfusion syndrome in elderly patients with, 155
complications and results of subdural grid electrode implantation in epilepsy surgery, 346
iatrogenic acute subdural hematoma due to drainage catheter, 444
interhemispheric, caused by ruptured internal carotid artery aneurysm, 82
Superior cerebellar artery aneurysm, distal, in systemic lupus erythematosus, 73
Surgical approach
to lateral ventricle choroid plexus papilloma, 366
limited anterior petrosectomy with preoperative embolization of inferior petrosal sinus for ventral brainstem tumor removal, 10
occipitocervical fusion following extreme lateral transcondylar approach, 109
transvenous occlusion of dural cavernous sinus fistulas through thrombosed inferior petrosal sinus, 42
Surgical technique
anterior temporal lobectomy, 341
grafting of neural tissue in chronically injured spinal cord, 117
limited anterior petrosectomy with preoperative embolization of inferior petrosal sinus for ventral brainstem tumor removal, 10
massive chondrosarcoma in skull base associated with Maffucci's syndrome, 165
nerve rootlets to be sectioned for spasticity resolution in selective dorsal rhizotomy, 126
occipitocervical fusion following extreme lateral transcondylar approach, 109
olfactory groove meningioma: surgical techniques and pitfalls, 415
subdural grid electrode implantation in epilepsy surgery, 346
syringe needle located deep in brain: image-guided removal, 458
Sympathectomy, transthoracic endoscopic, 96-le
Systemic lupus erythematosus, distal superior cerebellar artery aneurysm in, 73

T

Technology
future of radiosurgery: radiobiology, technology, and applications, 406
technology vs. morality, 92-ed
Temporal lobectomy, anterior, 341
Temporalis muscle, juxtapositioning for intractable subdural empyema in infants, 316
Tenascin-C, expression in astrocytic tumors, 235
Testicular cancer, metastatic, presenting as spinal cord compression, 27
Tethered cord syndrome in adults, 403-le
Thyroid papillary carcinoma, cerebellopontine angle metastasis from, 320
Transpetrosal approach, limited anterior petrosectomy with preoperative embolization of inferior petrosal sinus for ventral brainstem tumor removal, 10
Transsphenoidal meningoencephalocele in adults, 183
Transthoracic endoscopic sympathectomy, 96-le
Trauma
differential treatment in acute upper cervical spine injuries, 203
grafting of neural tissue in chronically injured spinal cord, 117
growing traumatic leptomeningeal cyst of roof of orbit presenting with unilateral exophthalmos, 178
intradiploic hematoma after skull fracture, 87
neglected craniocerebral gunshot wound resulting in encephalocele, 397
spontaneous movement of metallic intracranial foreign body, 267
syringe needle located deep in brain: image-guided removal, 458
transverse clivus fracture, 171
Trigeminal neuralgia
radiation induced vascular injury after stereotactic radiosurgery for, 189
radiosurgery for, 285

U

U0126, prevention of vasospasm in penetrating arteries with MAPK inhibitors in dog double-hemorrhage model, 221

Ultrasonography
migration of intraspinal schwannoma documented by intraoperative ultrasound, 455
ultrasound-based navigation during intracranial burr hole procedures, 134
Urokinase, cisternal irrigation with, to prevent vasospasm, 95-le

V
Vascular endothelial growth factor, prognostic significance of clinical and angiogenesis-related factors in low-grade oligodendrogliomas, 229
Vasospasm
brain tissue PO_2, PCO_2, and pH during cerebral vasospasm, 432
cisternal irrigation with UK for prevention of, 95-le
morphological changes of cerebral penetrating arteries in canine double hemorrhage model, 212
prevention of vasospasm in penetrating arteries with MAPK inhibitors in dog double-hemorrhage model, 221
Ventriculoperitoneal shunt surgery, spontaneous bowel perforation after, 388
Vertebral arteries, multiple "mirror" aneurysms involving intracavernous carotid arteries and, 361
Viral vectors, gene therapy for brain tumors, 3

W
Workmen's compensation, late postoperative results in 1000 work related lumbar spine conditions, 101
